

AI/Machine Learning Developer

This profile targets clients looking for hands-on development and implementation of AI models.

- **Professional Headline:** Experienced AI & Machine Learning Developer | Python & Deep Learning Specialist
- **About You (Bio):** I am a passionate and results-driven Artificial Intelligence and Machine Learning developer with over 5 years of experience designing, training, and deploying intelligent systems. My expertise lies in Python, TensorFlow, PyTorch, and scikit-learn, with a strong focus on natural language processing, computer vision, and predictive analytics. I excel at translating complex business problems into robust AI solutions, from data preprocessing to model optimization and deployment. I'm committed to delivering high-quality, scalable, and impactful AI applications.
- **Your Skills:** Machine Learning, Deep Learning, Python, TensorFlow, PyTorch, Data Science, Natural Language Processing (NLP), Computer Vision, Predictive Analytics, Keras, Scikit-learn, AWS, Azure, Google Cloud Platform (GCP)
- **Experience Level:** Expert
- **Hourly Rate (USD):** \$75 - \$120
- **Portfolio or Personal Website (Optional):** www.aidemos.com/your-work (or a link to your GitHub profile with AI projects)
